No	Face-book Name	Involvement period	Sex	English translation	Outcome
					<b>Anecdote</b> (i.e. potentially an outcome but lacking specific or detailed data) <b>Proto-outcome</b> (i.e. an attitude change only) <b>Observation</b> (reinforcement of a proto-outcome) <b>Statement</b> (a general statement on the issue)
1	Bella Rumisha	From 2 <sup>nd</sup> March –up to date	F	<p>Mainly, I am now independent, I learnt to never give up and to be free without crossing boundaries</p> <p>Primarily, I learnt to respect and support women/girls in my everyday life. I realized that they also have something to contribute to societal development, starting within families. For example, Wito shows great patience through all the challenges she faces, such as being marginalized by her fellow teachers. Sophia demonstrated that Women/girls can also do things that we only thought men could do, e.g being able to play soccer. I learnt that, if women are given the opportunity to remove the patriarchal system that exist within our societies which is a barrier for many women, they can become the centre of development.</p>	Anecdote
2	Reganise Von Lettow	From 8 <sup>th</sup> March – up to date	M	<p>-Secondly, what I learnt from The Team is that good academic work and sports can take your focus from negative activities, e.g crime.</p> <p>-Thirdly, not to take shortcuts in life as means to succeed, e.g when Sophia's family were forcing their daughters to get married for money while their daughter is still very young. Upendo desiring to have material things by having a relationship with a man who is so much older than she is and trying to mix that way of life with education. Those two things do not mix.</p> <p>I learnt a lot from The Team.</p> <p>-The same rights should be given to male and female children, e.g same rights in sports</p> <p>-Those of us who are still in school should focus on our academic goals and not get involve in love affairs with much older people like Upendo had done.</p>	Proto-outcome
3	Rabbi Francis Hume	From March 8 <sup>th</sup> –up to date	M	<p>- To have a strong will like Wito.</p> <p>-Parents should give their children the same rights, e.g Sophia's parents believed in Waridi more and she is the one who ended up falling pregnant.</p> <p>-Do not judge others before judging yourself first e.g Sophia's mother believed that Upendo had bad behaviors and her children were saints, at the end one of her children ended up disappointing her.</p>	Proto-outcome
4	Issa Maulid	From March 10 <sup>th</sup> up to date	M	<p>I used to think like Baraka but now I have changed. I now believe that women can bring development in society, e.g what Wito did to defend the school soccer field although she faced many challenges, that was amazing. Her determination taught girls who did not know how to play soccer to become professional soccer players.</p>	Proto-outcome
5	Francis Simon	From April 6 <sup>th</sup> up to date	M	<p>Because of Watching The Team, I have become independent and I now make decisions that I feel are right for my life. I currently study at MSJ (Morogoro School of Journalism), studying TV and radio production. The quality of your work encouraged me to keep studying harder and has convinced me that I had made the right choice. There are two things that I now believe that were not present before The Team, 1) a goal of becoming the best editor and presenter in the world. 2) Wanting to act in drama plays. The Team has been encouraging me in many ways, I now believe that I am capable of so many things. this is why I save money each week to buy airtime for internet to be able to access you-tube.</p>	Proto-outcome
6	Mussa Mdee	From April 15 <sup>th</sup> up to date	M	<p>I discovered that women can also play soccer well. I used to believe that if a woman plays soccer she would develop muscles in her legs like a man. Now I have been educated and I would like to advise people not to believe that women are not able, we should not discriminate and equal rights should be given to all.</p>	Proto-outcome
7	Joshua Timo	From 24 <sup>th</sup> April up to date	M	<p>This is a tough question! However, I have learnt a lot. Later on in life if I get a daughter, I will make sure that I am close to her and I would ask her what she wants and what she does not want. I also copied a few things from The Team when it comes to romantic relationships. I stopped having many relationships with multiple women at the same time. Congratulations The Team.</p> <p>There are many major changes.</p>	Anecdote
8	Elisha Gwendu	From 27 <sup>th</sup> April up to date	M	<p>I discovered that there are so many things that can hinder one's talent just because people believe that they are of a particular gender or due to negative norms.</p> <p>Parents should not be too quick to point fingers at other people's children; rather they should try to help them.</p>	Proto-outcome

9	Dee Mohamed	From 1 <sup>st</sup> May up to date	M	I learnt a lot and now believe that in life sometimes the little things you ignore can create big problems later on. The Team taught me to be very careful in life.	Proto-outcome
10	Jacks Sparrow	From February 24 <sup>th</sup> to date	M	I have discovered many things in my life because of The Team. For example, women can achieve many things that men can also achieve, e.g in a sport such as soccer. What they need is support.	Proto-outcome
11	Ismail Kisubi	From April 12 <sup>th</sup> to date	M	What has changed in my life is that, I now know that women can do anything, so I now enjoy collaborating and working with people of all genders. I learnt a lot. In short, I learnt about a woman's role in society, although I remember studying it in school but The Team has brought more depth to it.	Proto-outcome
12	Ambrose Law	From April 16 <sup>th</sup> to date	M	What I now believe and did not believe before is that, a girl like Sophy can play soccer the way I saw her playing on TV. I mean she was able to do free styles and everything. She's amazing, truly, anything is possible.	Proto-outcome
13	Ino Felix	From March 8 <sup>th</sup> to date	M	I believed in gender equality but not to the extent that The Team emphasized it. Women can achieve much more than men can. Women can make good decisions if they are given the opportunity. Firstly I would like to thank The Team for replying to my messages; I did not expect that you would reply.	Proto-outcome
14	Johnson Rutaraka	From April 25th	M	I learnt that anything possible, it does not matter if one is a woman or man, equal rights to all, women do well. I really Love The Team and its entire cast. I would love to be part of it but I guess there is no other way. Say hi to Sophie, Wito, Baraka, Pendo and headmaster (names of characters). I love them a lot. Wish you all the best The Team. Mwaaaah!! (as in kisses)	Proto-outcome
15	Vincent Paul			Parents should be able to allow their children to choose what will be best for them and will help them in life.	Statement
				A child should be raised by both her/his parents in order to be raised well. This is what has created problems in Pendo's life.	
				It is not a good thing to discriminate against women, they are able to achieve as much if they are given an equal opportunity.	
				Teachers should have different methods of teaching students, like Wito has done.	
				Teachers should take their work seriously and not get drunk during office hours. Teachers are role models and therefore should be the examples.	
				The government should not be corrupt and make the society poor because of a few people's benefit.	
			M	Journalists should stand their ground and not give in to corruption and threats. They should write truthful and honest information. Pendo's aunt's husband showed a very good example.
